"THAT COURT."

Last week we had something to say about a certain "court," being held er's certificates appeared for examinain Ward & Collins' office, in the city tions at Caruthersville, Aug. 26 and 27: of Caruthersville, pretending to be in Riley had ordered that no subpoenas be issued without his consent.

merrily on, calling witnesses before it, tions, compelling them to testify.

So far as we are able to learn, there is no money on hand to pay these witnesses or the expenses of this court, and all this expense will have to be granted. taxed up against the county and be paid out of the county treasury.

One unusual thing this court is doing, is issuing attachments for witnesses without giving them a chance to appear. It has required considerable time-in some instantes as much as two days-to get through with a them when needed. We are informed that this promise was made. We know, however, that in our case, it was not kept, as an attachment was issued for us without notice or warning, before our presence was needed on the stand, and when we did appear before the court we found other witnesses there, and one witness testify-

So, if not to browbeat, tantalize, maltreat and worry the witness, why was this attachment issued?

In several instances, where the election judges were placed on the stand, they claimed their constitutional rights, and refused to answer questions, and the court ordered the witness sent to jail. No one has went to jail, however.

In our case as a witness, we fail to see what this court is driving at, as no question asked us shed any light upon the contest, and we answered to the best of our ability, every question. What this court means, or intends doing, is all dark to us.

But we shall see what we shall see, and when circuit court meets it is hoped that the citizens of Hayti will be safeguarded against futher mistreatment.

W. H. Bolen has ordered the Hayti Herald sent to Fred Smith at Keitchburg, Ill., and to Amanda Dietze, Mill Shoals, Ill.

Business

In some lines of businesss price may well be the great talking point.

Those who can buy and sell lowest have something to say that is interesting to the public.

It's different. Quality, regardless of price, is and should be the main factor in all well-regulated and reliable drug stores. It is here.

The goods you know and the goods you don't know are all priced with fair profit.

> The goods are right. The prices are right.

SPOT CASH

It is with much pleasure that we are enabled to enlarge our advertising space. Our business has increased wonderfully during the past year, showing that the people appreciate our business methods and our low prices. Now that the dull months of the summer are here, we are going to make our prices just a little closer, as an inducement to keep up the buying interest, and to give the people some inducement to give me even a larger share of their trade.
